

Gopher the Gold

Brand guidelines for consistent application across marketing, product, and partner materials.

Logo lockup

The primary logo is the preferred mark. Use the full lockup whenever possible.

Primary lockup

Maintain clear space around the logo equal to the height of the wordmark. Avoid stretching, rotating, or using the logo as a container.

Minimum size

Use the logo at a minimum of 120px wide for digital and 24mm wide for print. Ensure the wordmark remains legible.

Color usage

Prefer the full-color lockup on light backgrounds. Use single-color versions only when required by the medium (e.g., dark backgrounds).

Color palette

Brand colors extracted from the logo backgrounds. Use these for UI, typography, and supporting graphics.

Terracotta #BB5D33	Forest #314939	Copper #CF9181	Charcoal #1E2426	Gold #8D6837	Sand #ECDABE
					

Gopher Mark

Use the Gopher Mark isolated only when there isn't room for the wordmark. Use on the background that best matches the surrounding content. Avoid low-contrast placements.

 Terracotta	 Forest	 Copper
 Charcoal	 Gold	 Sand

Logo marks

Use these smaller outline/line art versions for favicons, social avatars, and compact placements.
